

5. Concerns are still justifiably being raised about the amount of dog dirt being left by dogs and their owners on the pavements and paths around the village. We have addressed this via Highland Council who have had their Dog Warden in the area but it appears many people just won't be told to tidy up.
6. Next weeks sees the opening of the new 'Explore Abernethy' display and information centre in what was the small hall. This will make another valuable contribution to the enjoyment of the village by tourists and visitors alike. I would like to thank and congratulate all involved in its development.

Finally, I would like to thank all my fellow Community Council members for their continuing commitment to making Nethy a better place.

Sandy McCook,
Chairman
